Danielle Simone, Area Manager

Upon starting at TEB6, I was assigned the shift Back Half Nights (Wed-Sat). Night shift gives you the flexibility and time to learn all of the ins and outs of Amazon. With a smaller team and slower pace on nights you are able to master becoming an Area Manger and grow your career. I have had an unbelievable experience here at Amazon. I have been able to make connections, lifelong friendships, and gain a ton of experience & knowledge.

Looking back, I feel that joining Amazon has been one of the best decisions I have made career wise due to the growth I have accomplished in the last 6 months. I have led projects within my building and also assisted peers with other projects. One of my most prized accomplishments so far is becoming the president for the Black Employee Network (BEN) affinity group here at LEX2.

I am proud to call myself an Amazonian. I get to make my own decisions while driving the safety of our Associates. Working a full-time job and pursuing MBA degree was bit challenging at first, but when given my schedule, I was still able to devote my time to studying and ended up receiving a 3.8 GPA. I'm excited to be continuously leveraging my knowledge and developing my leadership skills to gain an extensive knowledge of the business through various challenging activities across supply chain network.
